

CAUGHT WITH THE GOODS

By Chas. E. Jones.

After hob-nobbing with the negroes in order to secure the nomination of Roosevelt the Bull Moose state candidates are going about the state crying that "Roosevelt's party is a white man's party." Such assertions to white men of Florida insults the intelligence and virtue of this proud Democratic commonwealth.

In previous issues of Dixie I have shown how Theodore Roosevelt later placed his arms around the necks of two dirty negroes, and in the presence of thousands of white men proclaimed these sons of Ham the equal of any man in the audience. I have recalled how this blither-skite told the white people of Indiana that if they did not accept a negro as their postmaster they could do without their mail. I have told how he ate dinner with Booker Washington in his own residence.

Looking over Roosevelt's disgraceful past and his association and love for the inferior race—reading his lying attacks on Jeff Davis, Robert E. Lee and other southern statesmen, I am unable to understand how white Democrats can consider him except with the supreme disgust. Some have been fooled by the cry of progressiveness as they are anxious to see the remedy for national ills applied, but they should place no confidence in the pledges of Roosevelt, for he has proved himself the colonial liar of the age. Some familiar with Roosevelt and who have been closely associated with him are honest in the belief that his mind is affected, others charge that he consumes so much whiskey a day that his spectacular performances are the result of intoxication.

A Menace to the Country.
Roosevelt drunk or Roosevelt sober is a menace to our country—Roosevelt crazy or Roosevelt sane is a damnable disgrace and a danger when honest men can be found to believe his promises.

E. R. Gunby, a chronic office seeker, when the negro, Joe Lee, had charge of the "pale counter"—who affiliated with Lee, McFarlane and others who now rule the Republican party in Florida, has joined hands with W. C. Hodges, another chronic office seeker, and are telling southern white men that they believe in a white man's government. Herbert L. Anderson, the manager of the Bull Moose for Florida, comes from good old Kentucky Republican stock. He comes from the "Pennyville" district which polls a majority of from 12,000 to 15,000 Democratic majority. He was lonesome in Kentucky and moved to Florida where he became still more isolated until his dealings with F. A. Holt, Anderson also talks about the negro now, but he planned with them—he worked with them to secure Roosevelt's nomination.

Holt Helping Anderson.
Mr. Anderson is in touch with

Roosevelt's national headquarters and he sent to Chicago for literature to distribute among the white Democratic voters of the state. Pleasant Holt gave him a list of Democratic voters and Anderson and Holt were working harmoniously together to send out this literature to the white men of Florida. Among the literature was Theodore Roosevelt's "Confession of Faith," "Hiram Johnson the Machine Smasher," "Why Americans Won't Stand for Free Trade," "Speech of Jane Adams," "Onward Christian Soldiers," and a lot of other Bull Moose stuff showing that Roosevelt as a Progressive is just the reverse of Roosevelt as president.

But there was other literature that the Bull Moose headquarters sent to Florida which is being secreted by some of the Florida Bull Mooses. Some of these have fallen into my possession, and it fully sustains my charges that the Bull Moose favors the negro and negroes will get post offices and federal jobs in the south if Roosevelt should be elected president. Among this Bull Moose literature is the "Progressive Bulletin," a paper published weekly by the hundreds of thousands and sent broadcast throughout the country by the Bull Moose manager in Chicago. From one of these bulletins I clip the following paragraphs which appear under a 24-point heading four columns wide—"The Bull Moose Party and the Negro."

"John H. Moseley, a colored man, has just been nominated for presidential elector on the Bull Moose ticket in the state of Illinois."

"Forty-eight colored men were delegates to the Bull Moose state convention at Columbus, Ohio. Thirty of these colored delegates came from Hamilton county, which happens to be the home county of President Taft. After counting the colored delegates Mr. Henry Taylor, of Cleveland, said, 'It is the largest number of negroes that ever sat in a political convention in Ohio. I guess that answers the attitude of the Progressive party toward the negro.'"

Denounces Race Discrimination.
"Over twenty colored men were delegates to the recent state Bull Moose convention which met at Syracuse and nominated Hon. Oscar S. Straus for governor of New York. The colored delegates took an active part in the proceedings of the convention. Several colored delegates made speeches and one of them seconded the nomination of Straus for governor. Through the influence of the colored delegates, two important planks affecting the colored people were put into the platform. ONE PLANK PUT THE PARTY ON RECORD AS DENOUNCING RACE DISCRIMINATION IN CAFES AND PLACES OF PUBLIC AMUSEMENT, WHILE THE OTHER PLANK FAVORS THE ENLISTMENT OF A COLORED REGIMENT IN THE NA-

TIONAL GUARD OF THE STATE OF NEW YORK."

"At a recent meeting of the New York state committee the following named gentlemen were elected as members of that body: John R. Gleed, New York county; H. L. Scott, Erie; Rev. W. H. Byrd, Monroe, and Dr. C. P. McElendon, Westchester. ALL OF THEM ARE NEGROES. This is the largest representation that the colored people of New York ever had on the state committee of a political party. For over twenty years there has been but one colored man on the Republican state committee."

Negroes Roosevelt's Choice.
"With but three exceptions all of the negro presidential appointees in Washington were appointed by Col. Roosevelt while he was president. ALMOST ALL OF THE COLORED GOVERNMENTAL EMPLOYEES IN THE CITY OF WASHINGTON WHO ARE NOW HOLDING POSITIONS EITHER CAME IN OR WERE RETAINED IN OFFICE WHILE ROOSEVELT WAS PRESIDENT. Even Cyrus Field Adams, the negro assistant register of the treasury, who recently compiled a Republican campaign book for negroes, in which he erroneously gives the Taft administration credit for all the negro appointments, was himself holding the same office that he has now under Roosevelt. Adams got out a similar campaign book in 1908, giving Roosevelt credit for the same negro appointments which he now gives Taft credit for in his new book."

"Dr. S. G. Elbert, of Delaware, is a Bull Moose. He is one of the wealthiest colored men in the state. His residence is one of the finest owned by any colored man in this country." Theodore Roosevelt has endorsed this "Progressive Bulletin" and hundreds of thousands of them are being sent out.

Decent White Men Should Think.
I appeal to southern men—to decent white men from every state who have made Florida their adopted home, to study closely the above paragraphs. Mr. Roosevelt endorses the platform which denounces race discrimination in cafes and public amusements. He says that your wives and daughters are none too good to sit side by side in a theatre with a greasy negro male or female and watch a performance; he says that your wives and daughters should sit at the same table with negroes in hotels, restaurants and soda fountains. He endorses the platform published above. Read it again and then contemplate it seriously.

I appeal to our Democratic orators now making a canvass of the state, I appeal to our Democratic editors to call special attention to this platform of which Mr. Roosevelt says: "I am delighted with it."

Mr. Roosevelt is not a Progressive because his speeches and his record

shows him to be a high protectionist. He is not honest or decent because he is a liar and because he says he believes a negro is as good as he is or any other white man. His whole record proves that hundreds of thousands of negroes are his superior in sobriety, honesty and truthfulness, but he goes beyond the limit when he says they are as good as real white men.

Mr. Gunby and Mr. Hodges—Mr. Anderson or Mr. Holt should be asked what they think of Mr. Roosevelt's joy over the plank favoring negro equality.

SOME SUPERSTITIONS ABOUT WEDDINGS OF THE AUTUMN BRIDE.

If she wears garters given her by a friend, that friend will have good luck and happiness throughout the year.

She should wear her wedding something old and something new, something borrowed and something blue, and a silver sixpence in her shoe.

She should always kiss a woman first on her wedding day.

It is bad luck to try on a wedding ring before the ceremony.

If the sun shines on her wedding day she will have a happy married life.

Violets are unlucky flowers to have near on a wedding day.

Pearls mean tears and should not be worn by bride unless the gift of her husband-to-be.

MR. AND MRS. DUSENBURY ATTENDING WEDDING OF NIECE.
Mr. and Mrs. J. P. Dusenbury left on Saturday morning for South Carolina, where they will attend the wedding of Miss Belle Dusenbury, of Atlanta.

Miss Fannie Waggenheim will be hostess this week to the members of the Manito Club, the fortnightly meetings of which have recently been resumed.

The club was entertained last week by Miss Esther Guggenheim.

MAURA-SCOTT WEDDING ON OCTOBER 23.

Few announcements have been received with greater interest and pleasure than that of the approaching marriage of Miss Helen Scott of Atlanta to Dr. Frank Rutledge Maura, which will take place on Wednesday, October 23rd, to be very quietly celebrated at the home of the bride-elect's parents, Mr. and Mrs. John R. Scott, 45 Ponce de Leon Place, Atlanta.

Miss Scott is a lovely, petite blonde, who has added to the charm of her beauty much grace and cordiality of manner, and during her residence in Pensacola, though but a school girl, made many friends in the older set as well by her beauty of character.

Dr. Maura is a physician of prominence and has won distinction in his profession. He is a graduate of Tulane, and immediately after his graduation in 1898 saw service in the Spanish-American war, entering as a lieutenant, and acting as assistant surgeon throughout the war going first to Cuba and later being in service in the Philippines. On his return to the states he had an important position with the quarantine service in Florida, and is at this time a lieutenant in the medical corps of Fort Barrancas, with headquarters in the city, but subject to call at the post at any time. He is also proprietor of the West End drug store of this city. Dr. Maura is one of the most popular young men of the town and his attractive bride-elect will find a cordial welcome awaiting her, not only from the many friends of her school days, but from the wide circle of her fiancé's acquaintances.

MEETING OF SHAKESPEARE CLUB ON THURSDAY.
The Shakespeare Club will hold its first meeting of the season at the home of the vice-president, Mrs. W. B. Ferriss, on Thursday afternoon at four o'clock, and will take up the first act of "The Tempest." Miss Cora Mallory leading.

The Shakespeare Club is composed of a number of cultured women who meet fortnightly, and will give two afternoons in each month to the study and discussion of "The Tempest" and "King Lear." The club is composed of the following officers and members:

Mrs. Walker Anderson, president; Mrs. W. B. Ferriss, vice-president; Miss Gertrude Friedman, secretary; Mrs. Max Bear, Miss Cora Mallory, Miss Margaret McIntyre, Mrs. Simpson.

IS ENGLAND'S ONLY WOMAN ENGINEER

Mrs. Nina Graham Walley.

Mrs. Nina Graham Walley, who before October 10 last, was Miss Nina Graham, enjoys the unique distinction of being the only English woman ever to secure a degree at an engineering school. She graduated recently from the University of Liverpool, with high honors. It is doubtful, however, if she will follow her profession as one of the first things she did on leaving the university was to marry a Mr. Walley, also an engineer, of Winnipeg, Canada. Mrs. Walley is the daughter of Capt. Graham, who is well known in Liverpool shipping circles.

UNDER THE PROTECTING WING OF MRS. SAGE, BIRDS WILL DEFY HUMAN ENEMIES

New York, Oct. 19.—According to Dr. W. T. Hornaday, head of the New York Zoological Garden, and others who ought to know, the recent acquisition by Mrs. Russell Sage, of Marsh Island, La., for a bird refuge, is the most important move in behalf of the birds of North America that has been made in many years. Marsh Island is the most important winter feeding ground for wild ducks and geese in the south, with the possible exception of Carrizosa Sound.

for food and shelter when more northern streams and lakes are under ice. Millions of birds have been slaughtered there. Now, with this island in the control of the birds' friends, American wild fowl will increase enormously, experts say.

"It is the most important move in behalf of the birds of North America since the will of David Wilcox provided for financing the National Audubon society," declared Dr. Hornaday, speaking of Mrs. Sage's gift.

"Every person who knows about the great annual migration of birds from the upper Great Lakes and plains down the Mississippi valley to the Gulf will appreciate the vital need of feeding grounds along the Gulf that are protected from gunners. Today bird sanctuaries are just as necessary as bird food. The feeding grounds for

birds in Louisiana and the absence of adequate laws for bird protection have made that state until this year a veritable dark and bloody ground. The slaughter of wild life has been incredible. It is a matter of official record that during one season, that of 1909-1910, a total of 4,265,585 game birds were killed in Louisiana.

"Nor does that include the vast numbers slaughtered by negroes and poor whites for food. At New Iberia, a short distance north of Marsh Island, at least 10,000 robins are killed annually for food.

"I think that Marsh Island is destined to play an important part in preserving the unfortunate snowy and American egrets—birds cursed by the possession of plumes which are literally worth their weight in gold. In 1900 years time egrets of the Avery Island rookery, founded and protected for twenty years by Mr. Milbenny, will find that Marsh Island is a safe haven of refuge. They will colonize it and twenty years from now it will contain 20,000 breeding pairs.

"Marsh Island is a great achievement. In its purchase and its dedication to the birds of America, Mrs. Sage has done a great public service."
